FIFTEENTH ANNUAL REPORT.

The Governors, in presenting their Annual Report, feel sure that the Subscribers and Contributors, after a careful perusal, will conclude that the usefulness of the Hospital is of a very high standard, and fully merits a continuance of their past financial support.

In-Patients.—The number of In-Patients during the year was 120, rather less than last year, but the number of hospital days during the year is 2,616, or 349 more days for 18 patients less than last year. This works out at 21.8 days per patient in Hospital. The cost of running the Hospital during the year was £1,274 5s. 5d. The number of Staff days for the year is the same as last year, viz., 2,190, so that the total days represented by the above cost is 4,806. This works out at a cost for Staff and Patients of 5s. 4d. per day, or £1 17s. 4d. per week, which represents 3d. per head per day less than last year. This the Governors conclude indicates the continued efficiency of the Hospital.

The number of operations performed on In-Patients during the year was 33. The number of deaths was nine, which seems very high, but one was brought in dead and six were beyond hope of recovering when admitted, but their last days were made as comfortable as humanly possible.

Out-Patients.—This branch of Hospital work was well maintained, and consisted of 200 Patients, and dressing of the same was 2,492. Minor operations, 86; General Anæsthetic, 29; Local Anæsthetic, 39; Total 68. This part of our Hospital work is highly appreciated, and relieves the surgeries of the district.

X-Ray.—This very useful apparatus, under the skilful supervision of Mr. Hurley, has been the means of very materially assisting our Hospital Staff in their duties, and has been conducive in reducing the length of time patients have remained in Hospital suffering from serious accidents. The number X-rayed during the year was 51.

The cost of its upkeep has been almost negligible during the year. It has proved to be one of the best apparatus introduced into the Hospital.

Sunlight.—After careful consideration the Governors have within the past few weeks introduced the Hanovia Artificial Sunlight, but up to the present it has not been available to the Public. It is hoped to commence on and after Oct. 19th. The Governors believe it will be another useful apparatus, and able to cure or ease many minor complaints to which children are more or less susceptible. By the introduction of Sunlight our Hospital is considered fully equipped for all emergencies.

Staff.—The Governors desire to record their great indebtedness to our Consulting Surgeon, Mr. Greaves, for his valuable services to the Hospital during the year, also to our Medical Staff, whose duties have been well and ably maintained. The Nursing Staff has often been worked to its limit, but their excellent services have been maintained and appreciated by the Governors.

Sports Committee.—This valuable asset to the Hospital has contributed no less sum than £73 15s. 10d. A great amount of time and work was freely given by the Sports Committee, and has been highly appreciated by the Governors.

The Governors in their report desire to record their sincere thanks to Mr. Dudley for his appreciative services; The Ripley Radio Club for their wireless services; Ripley and Heage Flying Clubs for their monetary help; Mr. Hawkins for correct time; The Hairdressers for their services; Mrs. Lamb for her excellent egg week.

Ladies' Committee.—The ladies' valuable services during the year have been highly appreciated. They have provided the Hospital with all necessary linen, etc.; a considerable saving to the Hospital Funds.

The Hospital sincerely regret the loss by death of Mrs. T. Clarke and Mrs. Argile, two of the oldest members of the Ladies' Committee, and the Governors desire to express their very sincere sympathy to Mr. T. Clarke and Mr. Argile, two of the earliest Governors, in their serious illness, borne with great patience.

Our President.—Our President (Mr. Mitton) has made frequent visits to the Hospital, and presided at most Governors' meetings. His gifts have been numerous and valuable, and in order to show their appreciation of his past services he has been unanimously nominated for the coming year.

(Signed) F. W. GIBBS, Chairman.
